

Testimonials

Specialty Boatworks

Alan Rusher

Wilmington, NC

“We really like the VANISH system. It is so easy to maintain and operate that it is almost fool-proof. Specialty Boatworks is proud to be the first boatyard in North Carolina to have their power-washing recycling operations permitted by the North Carolina Division of Water Quality.”

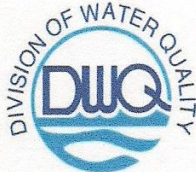

“Permitting was easy. We used Clean Marine Solutions compliance template. Authorities came to our yard to observe the system and our operations. We received a letter of compliance within a week. And perhaps best of all, because the system is so easy to operate, they did not require us to have a licensed wastewater operator on staff.”

Subject: Closed Loop Recycle System
Boat Washing Facility
Specialty Boatworks
New Hanover County

Dear Mr. Rusher:

In accordance with NC State Administrative Code 15A NCAC 02T, effective September 1, 2006, the recycle system at Specialty Boatworks meets the requirements of Section .1003(a) for systems to be deemed permitted. The recycle system at Specialty Boatworks is not required to apply for a closed loop recycle permit provided that the facility continues to comply with the requirements of 15A NCAC 02T .1000.
